TO WHOM IT MAY CONCERN

As Directors of a small business, it was becoming increasingly obvious that our Company's needs were not being met by the standard banking system in operation today. I approached Aussie Mortgage Masters in response to their advertising slogan "Now is the time to beat the banks!". Their representative, Geoff Burden, called at our home to assess our needs and advise us as to other avenues that were available. As a result, we have been able to streamline our business and set achievable goals.

It was a pleasure to do business with Geoff as we found him to be both professional and reassuring in his genuine concern for our financial future. I would have no hesitation in highly recommending Geoff to anyone who is seeking assistance with the re-structuring of their business needs.

Yours sincerely,

Jennifer Bullen
Director
